

TRANSITION EVENT: GREY WATER DISCUSSION

Do you dream of transitioning to a simpler life? Would you like to live a more self-sufficient, resilient and localized lifestyle? Come connect with other like minded people to discuss how we can reduce our individual and collective impact on the environment while creating community.

Chandler Sunset Public Library Meeting Room, NE Corner of Ray and Rural
Monday September 20th, 6:00-7:30pm

PRESENTATION: GREY WATER REUSE

Nick Irvine, water harvesting practitioner certified by Watershed Management Group of Tucson, shares his extensive practical knowledge about grey water. Dive in!

It's a shame to irrigate plants with drinking water when they would just as easily prefer water with bits of compost (organic material) in it. Why not have that water do double duty? By setting up a simple grey water system, you can:

- Save water and cash
- Reduce strain on a septic tank or municipal treatment plant; use less energy and chemicals
- Exhibit a more connected and responsible use of this precious resource

COMMUNITY SEED BOX & SEEDLING EXCHANGE

Fall planting season is around the corner! Box of seeds, including a wide variety of cool season seeds, will be available for attendees to peruse and receive for FREE! If you have extra seeds or unusual varieties that you would like to share, you are welcome to bring them. Envelopes and markers will be provided.

Seasoned gardeners are encouraged to bring in extra seedlings, if available, to share as well. Please label and pack for zero for dirt emission onto library table!
